Subject: FW: Staging sand on fire access road 7/2/18

Hi So,
Hope you are well. Is there any way we can use the fire access road near the Oceanfront Condos to stage some sand when we aerate? The reason why this will work better is because the noise level won't be as bad for the residents that live near by…it gets the job done quicker.
Please let me know if this will be ok?

Thank you So!

-Lili

Hello Lili,`

The last couple years for aerification we staged sand at the fire access road in front of Ocean Terrace condos. Last time you told me to contact you beforehand so you could inform the city. Are we still good to go through with this?

We would have the sand dumped on 7/2 after 8:30am and we would have a frontend loader present (at all times) in the event we needed to move the pile for anyone that needed access. The pile would be finished by the latest 4:00pm on 7/2. The sand will be used for topdressing the fairways. There would only be two loads being dumped there.
Thanks,

Michael
